

Newport Solid Fuel Heater

WARNING

Do not overfill combustion chamber with fuel or damage can occur.

Fuel types include (but not limited to):

Fuel type	Maximum amount of fuel that can be burned	Approximate burn time	Damper position
Softwood (pine, spruce, fir)	10 pieces max. (each approx. 1" x 1" x 5")	15-30 mins.	closed
Hardwood (Oak, Maple, Beech)	10 pieces max. (each approx. 1" x 1" x 5")	25-45 mins.	closed
Charcoal briquettes	12 standard charcoal briquettes max.	90-120 mins.	closed

All quantities and burn times are estimates and may vary. Burn times are affected by chimney set up, overall length and other atmospheric conditions. Failure to follow these guidelines may result in damage to the heater. Warning - do not operate this heater unattended.
