

**PRODUCT UPDATE NOTIFICATION**

Dickinson Marine would like to inform everyone of a product improvement on the propane deckcap fittings. In approx July 2014, to better the air intake, the top bell of the cap was raised 3/8" higher. In doing this, all cap accessories had to be raised as well. The new part #'s of these accessories have an "A" added to the part#, see below. Any questions, please email [info@dickinsonmarine.com](mailto:info@dickinsonmarine.com)
