

# MAXWELL

## REVOLUTIONARY NEW CHAINWHEEL

WITH THE UNIQUE  
PATENTED  
Wave Design™

**Maxwell once again leads the market in innovative thinking with the introduction of their latest Wave Design™ chainwheel.**

This patented rope/chain wheel incorporates two unique design concepts that greatly improve the handling and control of the rope/chain spliced rode. The outer ribs of the chainwheel are angled slightly forward ensuring that the rope and the chain are smoothly guided in the wheel during anchor retrieval.

As the rope pulls into the wheel, the opposite facing inner ribs grip the rope in an undulating manner, securing the rope more firmly in a 'wave pattern' action that is far superior to the traditional 'jam cleat' manner of holding the rope. Not only does this Wave Design™ hold the rope more securely, it is also kinder on the rope resulting in increased longevity of your anchor rode.

### Wave Design™ Chainwheel sizes

Is fitted to the RC Series and the HRC Series windlasses, designed for anchor rodes with any marine grade chain, G4, BBB, Proof Coil and Metric.

**Chain** - from 6mm (1/4") to 13mm (1/2").

**Rope** - from 12mm (1/2") to 20mm (7/8").

### Chainwheel's unique Wave Design™ action
